

Kim George

Associate
KliC4 Training

Kim is one of our "outdoor experts". He is a pioneer in developing aspects of Outdoor Education teaching, and has long been recognised as one of the country's top advisors on the subject. He brings extensive experience in curriculum development, course design and delivery and is a highly popular facilitator with all age groups and backgrounds.

During his career Kim has worked in corporate education, schools, Higher Education and in charities. Every ski season he can be found running his own specialist alpine and telemark Ski School with international clients in Italy. He has represented Great Britain in cross-country skiing and cycling, and has served as a Director of BASI (The British Association of Snowsports Instructors).

Kim is noted for his attention to detail, and leaves nothing to chance in his preparations for our sessions on team building and leadership skills development. He demonstrates great patience and empathy with participants, while always maintaining an 'edge' to the challenges through which they gain confidence and long-lasting learning experiences.

His preference for involvement in innovative new ways of enhancing people development, and in finding new vehicles for education, led him to KliC4Training and our projects within charity and community organisations. He strongly believes in the power of structured sessions, as opposed to one-off 'employee volunteering' days, as they can be targeted to specific developmental, confidence and morale outcomes with tangible ROIs.
